INTRODUCTION
AND
GENERAL INDEX

R. L. POLK & CO., presents to subscribers and the general public, this, the latest edition of the Astoria and Seaside City Directory including Gearhart, Hammond and Warrenton. (In all, R. L. POLK & CO., and its affiliated companies publish more than 1,300 city and suburban Directories).

Confidence in the growth of Astoria and Clatsop County's industry, population and wealth and in the advancement of its civic and social activities, will be maintained as sections of this Directory are maintained as sections of this City Directory are consulted, for the City Directory is a mirror truly reflecting cities and communities to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering th best in City Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional people and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Directory will fulfill its mission as a source of authentic information pertaining to the city and county.

Four Major Departments

The four major departments are arranged in the following order:

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and the addresses of all business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In busy and diversified communities the necessity of having this kind of information up—to—date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES, of residents and business and professional concerns is the second major department, printed on white paper. This Directory aims to show the name, marital status, occupation, home owner symbol, telephone number and address of each adult resident, and the name, official personnel, nature, telephone number and address of each firm and corporation.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section, the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the

designation of owner occupied homes, the listing of telephone numbers, new householder symbols and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Community Publicity

The City Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. The publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference as perpetual and reliable advertisements.

The Directory Library

Through the courtesy of the publishers of the City Directory, a Directory Library is maintained in the offices of the Chamber of Commerce, for free reference by the general public. This is one of many Directory Libraries installed in cities and towns throughout the United States and Canada through the courtesy of your publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional people who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

Astoria and Clatsop County are rich in historic interest and importance. Early events occurring here had far reaching effects, eventually resulting in Oregon and the Pacific Northwest becoming a part of the United States instead of the possession of a foreign power.

Urged on by the desire to find a fabled "Northwest Passage" by water across the North American continent, Spanish and British explorers had sailed along the Oregon and Washington coastline, but the Columbia River was not discovered until 1792, when Captain Robert Gray of Boston entered the river and named it after his ship, the "Columbia".

In 1804, President Jefferson appointed Captains Meriweather Lewis and William Clark to head an expedition across the western plains and mountains to the Pacific Ocean. Lewis and Clark explored the Lower Columbia region and spent the winter of 1805—1806 at For Clatsop, near Astoria.

Fort Clatsop, a national memorial park, the 1805—06 headquarters of Lewis & Clark near Astoria was rebuilt in its exact replica in 1955, and is one of the finest tourist attractions on the Pacific Coast today. Located on the exact site of the original fort, 3 miles east of Highway 101 between Astoria and Warrenton.

In 1810, John Jacob Astor of New York, organized the Pacific Fur Company to engage in the fur trade on the Columbia River. This company sent the ship "Tonquin" by sea and another party overland, the two to meet at the mouth of the Columbia River. The men in the "Tonquin" arrived at their destination in March, 1811, and built Fort Astoria, the first permanent American settlement on the Pacific Coast. After many hardships and loss of lives the overland party arrived in the winter of 1811. Due to the War of 1812 and the loss of relief ships, the fort passed into the possession of the British, but was restored to the American flag in 1818.

Astoria, today, is a modern city of about approximately 10,000 population, the commercial, financial and shipping center of the Lower Columbia River district of Northwestern Oregon and Southwestern Washington. Most of the Astoria business district was rebuilt following a disastrous fire in 1922 and its stores and office buildings are a credit to a city of its size.

At the larger waterfront docks ocean liners load for ports around the world. Astoria Bridge (4.1 mile—long bridge crosses mouth of Columbia) across the Columbia River connects the highway system of Oregon and Washington.

Astoria's hotels, restaurants, garages and a modern retail shopping district furnish a complete, satisfactory service to the traveling public.

Basic Industrial Resources

Astoria is the headquarters of the Columbia River fishing industry. Plants located in or near Astoria with a value of $9 million commercial buildings process salmon, crab, bottomfish and shrimp.

Astoria and the surrounding area's economic base relies heavily on its natural resources. The basic industries are forestry and forest products commercial fishing, and tourism followed by shipping agriculture and government.

Timber, several varieties, all growing to immense size, forms the basin of a large logging and lumbering industry in Clatsop County. Fir, hemlock, spruce and cedar grow thickly on the slopes of the Coastal Range. The logs are hauled by motor truck to tidal streams, then towed to Columbia River sawmills. There they are made into every kind of lumber or converted to other wood products, such as veneer, plywood, shingles, pulp and paper, eventually going to markets all over the world.

Logs and some containorized cargo are shipped through the deepwater port of Astoria.

Astoria is Clatsop County's trade and service center and serves as the regional governmental center with the Clatsop County Courthouse, Clatsop Community College and regional State and federal offices.

Agriculture—highly specialized, producing top quality, high value crops—is concentrated mostly along the Columbia River and its Tributaries and in coastal river valleys. The

principal dairy farms are stocked with herds of high producing agricultural activity. Dairying and beef cattle are favored by a long period of green pasture, large yields of root and forage crops.

Agriculture is a small component of the county's economy.

Activities include dairying, mink ranching, cattle and raising of horticulture crops and specialty products such as cranberries.

Climate

The geographical location of Astoria produces a mild equable climate, spring—like most of the year. There are no extremes of heat or cold. Temperatures below freezing are usually of only a few days' duration and there are no summer "heat waves" or drought periods. The average frostless growing season is nearly ten months. The mean maximum temperature in December is 43. The average annual rainfall is about 70 inches, most of which falls between October 1st and April 1st. The mean temperature ranges from 58 to 48 degrees and there are over 300 frost—free days.

Recreational Attractions

Astoria is near the center of a beach resort recreational area along the Oregon and Washington coasts north and south of the Columbia River. The Clatsop beaches offer the vacationist and tourist unequalled opportunity for rest and recreation. Southward from the Columbia River for thirty miles reach the smooth, surfwashed sands of the beaches.

The Rich Heritage of Astoria also offers many historic attractions including the Columbia River Maritime Museum, Astoria Column, The Flavel House, The Heritage Center and year—round historically oriented festivals.

Along this stretch of interesting ocean front are located the resort communities of Seaside, Gearhart, Hammond and Cannon Beach. There are accommodations to satisfy individual desire or fit any expense budget—modern hotels, comfortable cottages, auto courts or camping sites. The restaurants and markets offer all kinds of fresh seafood and garden vegetables.

Many interesting and historic tourist attractions are to be found in and near Astoria, including the famous Astoria Column, Columbia River Maritime Museum, Fort Clatsop, Fort Astoria, Fort Stevens State Park, the wreck of Peter Iredale, Saddle Mountain State Park, Ecola State Park, Clatsop County Historical Museum, Lightship Columbia, Coast Guard Cutter Yocona, plus many other attractions for the tourist.

The Astoria Area Chamber of Commerce maintains an information service for tourists and others interested in Astoria and Clatsop County. Booklets, maps and other materials are available free to inquirers.

The Chamber office is located at 111 Marine Dr., Astoria, Ore. 97103. Sue Bublitz is Exec. Dir.; Liz Cornell is Office Sec. The phone number is 503—325—6311.

HAMMOND

Population 503

HAMMOND was incorporated in 1899 under the name of New Astoria. But since A. B. Hammond, an early community leader had most of the town's public buildings named after him, voters in a 1915 public election cast their votes in favor of putting a stop to the confusion and named the entire town after him.

Hammond has a boat launch and mooring basin which is the closest on the Oregon side of the Columbia River to the mouth where sport and charter fishing is offered.

One half mile from Hammond is Fort Stevens, built during the 1860's to guard the entrance to the Columbia River. Battery Russell at Fort Stevens was the only fortified spot in the United States to be fired upon by the Japanese in World War II. Also located at Fort Stevens is the wreck of the Peter Iredale. This was a British bark of 2,075 tons which was stranded on Clatsop beach, October 25, 1906.

The Hammond Town Hall is located at 861 Pacific Dr., Hammond Ore. 97121. Eloise York is Town Clerk. The phone number is 503—861—2712.

SEASIDE

(Courtesy of Chamber of Commerce)

The City of Seaside is located on Clatsop Beach at the Junction of the Necanicum and Neawanna Rivers 79 miles west of Portland via the Sunset Highway. Seaside is the most important beach resort in the Pacific Northwest on the Pacific Ocean and has a permanent population of 5,500 with as high as 50,000 visitors during the summer months. Seaside is the home of the Miss Oregon Pageant which is held in Seaside each summer. The city is served by Raz/Greyhound. From Portland it is little more than 1 1/2 hours' driving time to the resort city officially designated as the "End of the Lewis and Clark Trails".

SEASIDE, was not at any time intended to be a small, rural farming community. From the day of dynamic Ben Holladay's arrival on the scene in 1871, Seaside was destined to become what it is today: "Oregon's leading resort city by the sea"

Ben Holladay, shipping magnate, stage coach operator and railroad builder, bought a large land claim and constructed the Seaside House, a famous hotel for which the city was finally named. Holladay's lavish hotel was surrounded by a stable of fine horses, barns and a race track. Cages of wild animals were on display nearby and tame deer wandered the grounds at will.

A trap in the Necanicum River provided fresh fish each day. A flag flew from a flag staff atop the hotel, to be saluted by the firing of cannons aboard Holladay's steamers as they journeyed up and down the coast. Seaside became known as the "The Coastal Capital of Oregon". The title still stands.

In 1920, Seaside's famed paved Promenade was built. It extends more than 8,000 feet along the city's ocean frontage property. The Prom affords stollers majestic views south to Tillamook Head, east to picturesque Saddle Mountain and west to the blue Pacific.

Driving west on Seaside's Broadway Street, one reaches Seaside's popular ocean—view "Turnaround", a point officially designated as the end of the Lewis and Clark trail. The "Turnaround" is just a few blocks north of the Lewis and Clark salt cairn where, in the winter of 1805—06, men boiled sea water day and night in a successful effort to keep their Fort Clatsop party provided with salt. The salt cairn has been restored at its original site. Many other points of historical significance are located within the city.

For the recreation—minded, the Seaside area offers all an Oregon coastal community can offer, from surfing and clamming to golfing and horseback riding. If you like your fishing nearby, walk a few blocks to the Necanicum River. It flows practically through the center of Seaside, and produces some of the finest salmon and steelhead fishing in the state.

The Seaside Civic and Convention Center was completed in 1972 and has since accommodated thousands of people at conventions and special events with the number growing every year.

The Seaside Chamber of Commerce is located at 7 N. Roosevelt P.O. Box 7, Seaside Ore. 97138. The phone number is 503—738—6391 or toll free in Oregon 1—800—452—6740.

WARRENTON

The City of Warrenton, with a population of 2,470, is located in the northwest section of Clatsop County. The city was incorporated in 1899, and operates under the City Manager plan of government. The Skipanon River, a navigable stream, is used by ocean going vessels for the transportation of lumber and by local fishing fleets. The stream, being located through the industrial district and directly connected to the Columbia, insures a fishing industry and seagoing commerce to all industries requiring it. There is a complete grade and high school system as well as adequate churches.

WARRENTON, in 1899, was named for Daniel Knight Warren who owned 160 acres at the present site of the city. His hired Chinese laborers hand—built a dike two and one--half miles long on the Skipanon River, and soon thereafter Warrenton became the thriving fishing community it remains today.

Warrenton is geographically the largest city in the county and the third largest city in the state. Its unique location and amount of space make its development potential the greatest in the area, with large industrial sites available at the airport and in adjacent lands.

Warrenton has much to offer with Fort Stevens State Park and the largest charter fishing fleet on the Oregon side of the Columbia River. Newly built is a city park with four baseball fields and 4 tennis courts. Plans are to continue expanding for bicycle/hiking trails and picnic areas.

Visitors are welcome at Warrenton's commercial packing houses where they will be interested in seeing firsthand the care given to canning, freezing and packaging of crab, salmon, shrimp and bottom fish.

Dant & Russell Inc. has one of the newest and most modern lumber mills in the Pacific Northwest.

The City of Warrenton has provided a visitors' information booth at the Warrenton mooring basin, with basin personnel available to assist anyone seeking information about the area.

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

A STATEMENT
OF
ADVERTISING PRINCIPLES

1. Good Advertising ~ aims to inform the consumer and help him to buy more intelligently.

2. Good Advertising ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. Good Advertising ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. Good Advertising ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Advertising Federation of America

(Your Directory publishers fully subscribe to the principles set forth in this statement)

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore 1000 x 3½ x 305= 1,067,500.

CONSULTATIONS OR CIRCULATION CONSULTED

Don't Use An Old Directory!

One address taken from an old Directory may send you miles out of the way and waste a whole day's time. You take pride in keeping a fresh stock of merchandise on your shelves—

Why not avail yourself of fresh information for your daily use?

Study all directory advertising invoices carefully

Business and Classified Directory publishers under various names have flooded our mails for several years with solicitations resembling City Directory invoices. Most such solicitations state that they are not invoices, but nevertheless business people frequently overlook this and process them for payment.

What seems like an invoice may really be a carefully worded proposal for service — of an indefinite nature— and questionable value—to be rendered in the future, *if you pay in advance.* If in doubt, check with your local Better Business Bureau, or your established City Directory publisher.

Before you invest, investigate!

CITY DIRECTORY ADVERTISING IS *National* ADVERTISING

★ Each edition of your City Directory is widely distributed to free-reference City Directory Libraries located at the Chambers of Commerce of hundreds of other cities.

Therefore your ad in the City Directory is seen by buyers from coast-to-coast

If you think your business is so good you don't have to advertise . . . you could be in trouble.

PROPERLY USED, YOUR CITY DIRECTORY
IS ONE OF THE BEST SELLING TOOLS

WHAT KIND OF PEOPLE DO YOU WANT TO SELL?

Homeowners
Families who rent
Housewives
Executives
Employed Women
White collar workers
Dual Income Families
Blue collar workers

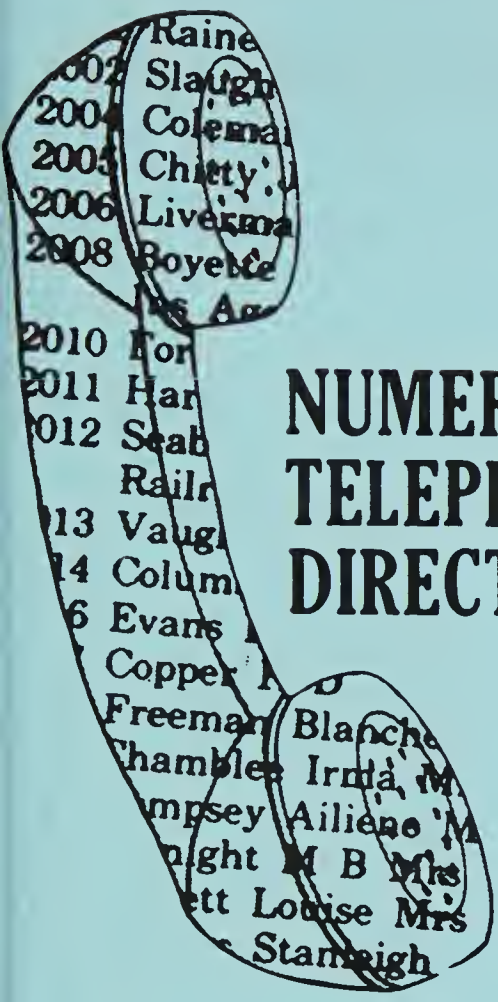
WHERE ARE THEY LOCATED?

Select neighborhood
New homes
Apartments
Residential
Your immediate trade area
Near neighbor to your present customer

HOW AND WHERE WILL YOU CONTACT THEM?

Mail
Telephone
Personal interview
At home or at office

USE THE CITY DIRECTORY FOR PRODUCTIVE SALES LEADS!



NUMERICAL TELEPHONE DIRECTORY

The Telephone Numbers and names in this Directary were supplied to us during aur regular doar-to doar canvass.

NUMERICAL TELEPHONE DIRECTORY
BLUE PAGES

This Directory takes the "mystery" out of blind numbers. It lists telephone numbers in numercial sequence, making it easy to "decode" blind phone numbers in classified ads—especially valuable for real estate agencies, used car dealers, etc.

WHAT'S IN A PHONE NUMBER?

ABOUT THE FIRM:
Who called me? When your call back message gives a telephone number only—or includes a common surname such as Jones, Smith, Brown, etc.—this Numerical Telephone Directory will assist in determining correct firm name. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:
Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the name of the subscriber—with this information combined with other sections of your City Directory you may quickly establish such information as wife's name, place of employment, job title, home address, business address and telephone number.

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

Our Service Cannot Be Excelled

R. L. POLK & CO.

FAIR PRACTICE CODE
for ADVERTISING and SELLING recommended by the COUNCIL OF BETTER BUSINESS BUREAUS

I. Serve the public with honest values.

II. Tell the truth about what is offered.

III. Tell the truth in a forthright manner so its significance may be understood by the trusting as well as the analytical.

IV. Tell customers what they want to know - what they have a right to know and ought to know about what is offered so that they may buy wisely and obtain the maximum satisfaction from their purchases.

V. Be prepared and willing to make good as promised and without quibble on any guarantee offered.

VI. Be sure that the normal use of merchandise or services offered will not be hazardous to public health or life.

VII. Reveal material facts, the deceptive concealment of which might cause consumers to be misled.

VIII. Advertise and sell merchandise or service on its merit and refrain from attacking your competitors or reflecting unfairly upon their products, services, or methods of doing business.

IX. If testimonials are used, use only those of competent witnesses who are sincere and honest in what they say about what you sell.

X. Avoid all tricky devices and schemes such as deceitful trade-in allowances, fictitious list prices, false and exaggerated comparative prices, bait advertising, misleading free offers, fake sales and similar practices which prey upon human ignorance and gullibility.

PLEASE! Do Not Lend Your DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.
